

VISHING ASSESSMENT-AS-A-SERVICE

Vishing Assessment-as-a-Service is a cutting-edge solution designed to help organizations assess their vulnerabilities to voice-based phishing attacks. Vishing, or voice phishing, is a social engineering attack in which attackers impersonate trusted entities over the phone to manipulate individuals into divulging sensitive information or performing actions that may compromise security. VAaaS provides organizations with a controlled and ethical environment to test and enhance their security awareness, policies, and procedures by simulating real-world vishing attacks.

WHY US

- **A SOC 2 Type II and ISO 27K Certified Service**
- **Industry Beating Priced Premium Quality**
- **1000+ customers across 20+ countries**
- **GDPR and Local Privacy Laws Compliant**

KEY FEATURES

- **Realistic Vishing Campaigns:** VaaS offers a range of realistic vishing scenarios to evaluate how well your employees can identify and respond to voice phishing attempts. We experienced professionals craft custom vishing scripts tailored to your organization's needs.
- **Risk Assessment:** Identify vulnerabilities and areas of improvement in your organization's security posture. VaaS provides detailed reports and analytics to help you understand your susceptibility to voice-based attacks.
- **Phishing Awareness Training:** Improve employee awareness and response to vishing attacks with our comprehensive training modules. Equip your staff with the knowledge and skills to detect and report suspicious phone calls.
- **Compliance Testing:** Ensure your organization complies with industry regulations, data protection, and security standards. VaaS helps you uncover potential compliance gaps and vulnerabilities.
- **Customizable Scenarios:** Tailor vishing scenarios to match your organization's risks and threats. Whether you want to simulate a CEO fraud attempt or a vendor impersonation attack, VaaS can adapt to your needs.
- **Post-Incident Analysis:** In the event of a successful vishing simulation, gain insights into how the attack occurred, what information was compromised, and what steps can be taken to prevent future incidents.

BENEFITS

- **Improved Security Awareness:** VaaS helps educate employees on the risks of vishing, enhancing their ability to identify and report suspicious phone calls.
- **Reduced Risk:** By proactively identifying and addressing vulnerabilities, organizations can reduce the risk of falling victim to real vishing attacks.

- **Regulatory Compliance:** Ensure compliance with data protection and security regulations through thorough testing and risk assessment.
- **Tailored Solutions:** Customize vishing scenarios to align with your organization's unique security concerns and priorities.

HOW IT WORKS

- **Initial Consultation:** We begin by understanding your organization's specific requirements and security goals.
- **Assessment Planning:** We develop a comprehensive assessment strategy, including the agreed scope.
- **Execution:** Our team conducts Vishing Assessments-as-a-Service based on the agreed scope.
- **Reporting:** We deliver detailed reports with actionable insights.
- **Remediation Guidance:** You receive expert recommendations for addressing vulnerabilities and enhancing your security posture.
- **Follow-up:** We conduct follow-up assessments to measure improvements as needed.
